Services – Our facilities and our residents require help in a variety of ways. Our building will require maintenance and improvements and you or your business may be able to provide the required services. Our residents may need professional assistance in a variety of areas and you may be able to help them out. These services could include legal, financial, medical, administrative, etc.

- ☐ I could provide services in the following ways:

Mentoring – Each resident will be assigned a mentor to help show them how to live a healthy life. Each mentor will only be assigned to one resident. Mentors will go through a training process and need to spend at least 1 hour each week with the assigned resident.

- ☐ I would like become a mentor with Lifehouse

Volunteer Instructor – Our program gives residents tools to function well in many areas. We will offer instruction in life skills (relationships, parenting, hygiene, cooking, shopping, etc.), financial skills, job skills, and spirituality.

- ☐ I would like to teach residents the following skills:

Volunteer Work Days – Periodically we may need help with a project at the houses or in conjunction with the program. This could include getting a house ready for residents or help with a fundraising or awareness event.

- ☐ Let me know when I can help with a work day

Business partners for employment – To help our residents gain employment quickly and sustainably, we are creating partnerships with local businesses.

- ☐ My business would be willing to partner with Lifehouse

Board – We have a 5 person board that helps guide our program and oversees fundraising and administration.

- ☐ I am interested in serving on the Lifehouse board
